The proposed operation is of the most delicate nature. Medical men say there is scarcely a chance in a thousand that the child will sur-

Her 18-year-old mother, Mrs. Lillian Moore, has given permission for the operation—has, in fact, urged it. She has said she prefers to take even a slight chance that the haby will live, perhaps to become normal, rather than condemnher to a life of certain imbecility.

The break voliscovered quickly and bloodhound were placed on their trail.

Details of the escape were not known immediately.

The three men were confined to a cage in the tuberculosis camp.

Smith was serving a 145-150-year sentence for a series of robberles. Powers was serving a long sentence and Gardner, a 22-year-old prisoner, was serving a shorter sentence.

The sheriff's department early to-day said a speeding automobile containing men they believed to be the escaping prisone's struck down and tilled John S. Williamson, 70, life-termer at the prison who, as a trusty, was in charge of the bloodhounds for the searchers, on the outskirts of Mil-

Meanwhile, rumblings of opposition to Harvey C. Couch, of Pine Bluff, Ark., nominated today by President Hoover as one of the three democratic directors, rolled beneath the surface of congressional activities but had not flared into the open.

Assurance he would be confirmed was ready in the sturdy support of Senator Robinson, of Arkansas, the minority leader. The banking committee prepared to take up his name immediately, as well as those of Jesse H. Jones, of Houston, Texas, also appointed today and of Charles G. Dawes, named president of the corporation.

Relief for depositors in closed banks became of primary interest today to the administration, along with discussion of who will be the third democratic director and the last officer to be mamed to the board of the reconstruction corporation.

A day or two was expected to elapse before the choice is made. The democratic leaders are conferring upon possible nominees, and fining the names prominently mentioned are Gerald Hughes, Denver attorney, and W. S. Cond, of Omaha.

The president is believed turning to the far west or northwest for his selection. It is understood that Garret W. McEnerney, San Francisco lawyer, was offered the post but declined, bringing about the delay.

WASHINGTON, Jan. 25 .- (P)-The wave of economy today sank treaty navy proposals so deeply that they are not likely to be brought up before the house until next December.

Instead of pushing the construction program the committee tomorrow will begin to look into reported defects in the navy's new airship, the Akron.

Naval officers will be summoned to answep charges that the ship is unsafe. Chairman Vinson and Representative McClintock, democrat, Oklahoma, hope that if there are any defects, they can be eliminated from the Za55—the Akron's sister ship now under construction.

The democratic committee chairman from Georgia said the group was "convinced that the welfare and security of the nation demand" a navy as big as treaties allow. But he added:

"In view, however, of the very abnormal economic conditions which now confront us at home and abroad, and in the hope that some substantial results may be achieved at Geneva, the committee, in agreement with the chairman, has voted—for the time being—not to report the bill to the house."

Dr. Dodge's Statement,

Dr. Norton, indorsed by the Methodist ministers of the city, is in my judgment so gross a misrepresentation of the spirit, teachings and conduct from speaking a word in His behalf. To have a woman arrested in her endown to raise money with which to minister to the needs of hungry and homeless humanity, while they appeal to the pulpits every Sunday for funds with which they pay their own salaries, is to equal the picture of the harisee drawn by the hand of Jesus himself.

CHARLOTTE, N. C., Jan. 25.—(P)
Failure of a tenant to protest does not legalize search of private property without a warrant or actual consent, the United States circuit court of appeals ruled here today in reversing the case of John Karwicki, convicted in Norfolk, Va., of illegal possession of whisky.

After searching Karwicki's place of business adjoining his living quarters, and finding nothing, it was shown, an officer said he would look around a little if there was no objection, and found a small amount of liquor in Karwicki's rooms.

The court held that "conversation cannot be construed as authorizing search of the residential portion of the building," adding that the fourth amendment of the constitution requires, a warrant to bear special description of the quarters to be searched.

In view of the fact that the ministers are basing their present opposition to the humanitarian use of the Sabbath on the ground of its violation of man-made laws, the following quotation from Jesus is especially pertinent: 'And the Pharisses said until him, "Why do your disciples on the Sabbath day do that which is not lawful?'' And He said unto them, "Have ye not read what David did, when he had need, and was an hungered ... how he went into the house of God in the days of Abiathar the priest, and did eat the shewbread, which is not lawful?' Without any planned observance to mark the occasion, Chief of Police James L. Beavers today will round out his forty-first anniversary of police service to the city of Atlanta, most of which time he has been chief of the force.

It was on January 26, 1891, that the veteran chief entered upon his career of police duty as a "rookie" patrolman, in the days of fawn-colored helmets, drooping mustaches and hefty nightsticks; in the days when the mobility of Atlanta's pride depended on sleek horses, non-puncture-proof bicycles and—the chief's own conveyance—a trim, rubber-tired buggy. And the city's police force today finds

This was followed by an act of his own volition in which an act of his own volition in which he requested a pensioned retirement effective January 26—today. On January 1, however, the police chief withdrew his application and, while last week there was some movement in council looking to a change of police heads, nothing definite has been decided in that direction.

Sensible judge.
Not only is the reaction time lowered by any dose of alcohol, which fact sufficiently stamps alcohol a depressant—but the individuals' blood pressure, heart beat, respiration and every other vital activity or function which can be accurately measured, is diminished by alcohol in any dose. How any physician, of all people, can conceive that alcohol stimulates anything, is beyond comprehension, unless he chooses to disregard or deny the teachings of physiology.

Perhaps it is better for a sedentary person NOT to sleep shortly after such a strenuous physicial effort. At any rate, recuperation or refreshment

In giving this scientific view of the action of alcohol I do not mean to imply that alcohol has no place in the physician's therapetitic armentarium, for I believe it is a valuable remedy in some instances, when intelligently prescribed by the physician. #### Sending Power by Wireless Is the Oldest Trick in Nature -By Robert Quillen-

In order to understand the various "rays" now being harnessed by science, it is necessary to picture them as solids.

A ray of energy, whether visible or invisible, is much like a stream of shot poured from a bag. It is composed of many minute particles, one following another at incredible speed, and the source from which it came is made less by its departure.

You have seen the harmless "sparklers" used by children on the ourth of July. Once ignited, they throw off sparks until their substan

Radium functions in much the same way. The rays it throws off are ortions of itself, each as solid as the main body, and thus it steadily minishes until at the end of 18,000 years the last of it is gone. What becomes of the rays-the infinitesimal pellets hurled into space nobody knows. But one thing is certain: As they were in the uni-

verse in the beginning, so they will be here in some form until the end of time. There is no place to which they can go. of time. There is no place to which they can go.

The ultra violet rays of the sun, invisible to our unaided eyes, are equally solid. The particles of energy of which they are composed may be so small that millions could strike the pupil of the eye without doing it injury, but they are solid none the less.

They move from one place to another as definitely as the stream of thot moves, and may be imprisoned and carried from place to place.

It is their solidity—the fact that they are physical matter—that gives value to cod liver oil.

Certain small fish, swimming near the surface of the sea, absorb the rays from the sunlight as your untanned skin absorbs them. These fish are the favorite food of the sacred cod. When the codfish devours them and digests them, its liver retains the ultra violet ray particles as the human liver retains and stores up chemicals taken by

Roosevelt's Career

BY WALTER T. BROWN.
ALBANY, N. Y., Jan. 23.—(P)—
Governor Franklin D. Roosevelt, who entered himself as a candidate for the consented to be consented to the presidency when he consented to every county committeem have his name go into the North Dakota primary, is a political warrior of 22 years' experience.

The New York executive was only 28 when in 1910 he ran for the state senate in the rock-ribbed republican The governor was vacationing off the Maine coast when he was attack-ed by infantile paralysis. After a swim he was stricken. Only once can

men in Atlanta probably were rolling and tossing in their beds over the wave of cryptic missives which they report they have received in their mail.

"How many of those messages have received?" he con-

robust son of James Roosevelt, gen-tleman farmer and railroad executive, went to the navy department in Wash-ington as Secretary Josephus Daniels'

chief assistant.

An attack of infantile paralysis in 1921 palsied his legs and sent him to the political sidelines. Leaders counted him out. At the tiny Georgia hamlet of Warm Springs he found recuperative facilities and in 1924, Roosevelt, supported by his son, walked to the front of the stage in Madison Square Garden and nominated Al Smith for the presidency. He

and at the moment the businessman stooped to pick it up, he thought he detected a bright gleam in the foreigner's eyes. So he had decided to make a bold thrust, as they say in mystery stories.

"Look here," he said to the foreigner. "Can you read this? What is it?"

The foreigner, he said, smiled almost sadly to himself and uttered the most sadly to himself and probably value are the sadly and Tuesday night; probably teacher the desires to commit himself and to the four years he has been on Capitol Hill few have seen him and on Capitol Hill few have seen him

The foreigner, he said, smiled almost sadly to himself and uttered the word: "Polski." All further efforts to draw comment from the strange man, however, he added, were futile. He only repeated: "No spik Engels," shrugged and walked away.

While he was relating his story the telephone rang, and a young woman asked:
"Can you read foreign language—Danish, I think; or maybe Norwegian?"
"What? Have you received one of those mysterious messages, too?"
"No," she said. "I found half of a torn scrap of paper. It looks like Danish. It has a word, "Dzejach, on it. I found it in my boss" office."

The foreigner, he said, smiled almost interest in political economy, and in most instances ther views agree.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference in many ways.

This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the

first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than a tonic for tired bowels, and unlike habit forming layatives, you can habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation.

the other western transcontinental systems, gives the Southern Pacific direct access to St. Louis, Cairo, Ill., Little Rock, Ark., and Memphis,

Tennessee.

It also materially alters the commission's position taken in its 1920 consolidation plan as to transcontinental lines. The decision allows a new line to enter St. Louis and Memphis in direct competition with the Missouri Pacific and it changes the Cotton Belt from the proposed Illinois Central system.

During hearings, witnesses told the commission the Cotton Belt was in danger of bankruptcy from failure to meet its bond interest and maturities. It has \$20,727,750 of 4 per cent bonds falling due on June 1 and proponents of the unification held the road probably would be unable to meet this burden.

The board unanimously agreed to discharge 139 of the 145 employes of the road minintenance department, effective February 15. Judges of county courts and county officials were asked by the commissioners to voluntarily reduce their salaries to aid in a retrenchment program of county finances.

STATE WORKERS' PAY

BOSTON, Jan. 25.—(UP)—Governor Joseph B. Ely submitted his 1932 state budget to the legislature today, and in it allowed for a 10 per cent salary cut for all state employes receiving \$2,000 or more annually. He estimated a saving of \$570,000 would result. The budget was for \$60,533,698.65, \$3,000,000 less than the 1931 figure. If accepted, the governor said, it would result in savings of nearly \$4,500,000 from the actual appropriation from current revenue made in 1931.

start and the market closed slightly in higher.

United States Steel common sold up 1 3-8, lending some encouragement to other industrials, and holding the bulk of the gain.

Late selling of American Telephone and Standard Oil of New Jersey brought the market 'down from its top. Both issues closed above the bottom, however. Southern Pacific's poor December income figures found the stock a trifle heavy, but it 'recovered. interstate commerce commis-

The interstate commerce commission's decision allowing Southern Pacific to acquire the Cotton Belt was announced just after the close. There was a sprinkling of fractional to 1-point net advances through the carrier group, firmer issues including New York Central, Chesapeake & Ohio, Union Pacific and Louisville & Nashville.

December railroad earnings as expected are making unfavorable comparisons with 1930, this giving the carriers a poor month with which to top off 1931.

CHICAGO, Jan. 25.—(P)—Likelihood of crop damage to new winter
wheat east of the Mississippi led to
better buying of grains late today and
to consequent price upturns.
July wheat

July wheat, representing the new 1932 crop, sold even up with May, which stands for wheat already on hand in elevators or in farmers' bins. Basis of belief regarding domestic winter wheat crop deterioration was found in current reports that alternate freezing and thawing had become widespread.

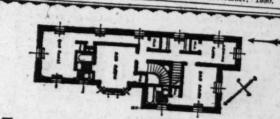

Rallying from early setbacks, wheat closed unsettled, 1-8 to 5-8 above Saturday's finish, corn 1-8 to 1-2 up, oats unchanged to 1-8 higher and provisions unchanged to 5 cents down.

Helping to lift wheat values during the last part of the day was a sharp decrease of 1,940,000 bushels in the United States wheat visible supply, contrasting with 964,000 increase a year ago.

year ago.
Corn and oats displayed firmness from the start.

Provisions sagged.

The first eight railroads to report for December had net operating income of \$3.-\$50,000 against \$4,199,000 in November and \$6,778,000 in December, 1930.

### Now that little cold room in the corner

gets its full share of heat at the same time as the living room ...

In the usual heating system radiators at a great distance from the boiler seldom get their share of steam. Likewise, those nearest the heater are oversupplied. That's uncomfortable, uneconomical and unnecessary. You can have your system "smoothed out", balanced, so that every radiator in the house, regardless of its distance from the bailer, gets heat at the same time and in the same proportion. It can be converted at a relatively small cost to an Improved Webster Type "R"System-the last word in heating efficiency and com-

fort. Call your own heating

contractor today and have him explain this remarkable heating system. He will receive full cooperation from the Webster Branch Office in preparing his recommendations and estimates.

FOREIGN BONDS.

NEW YORK, Jan. 25.—(P)—Hugh Herndon Jr., round-the-world society flyer, returned today from a belated honeymoon to the West Indies and disclosed that he rescued his bride from possible death in the tenacles of a large octopus.

Mrs. Herndon was swimming in deep water off Sandy Key Island, near Nassau, when the octopus appeared. Mrs. Herndon, not realizing her danger, approached it, Herndon said, and as she did so it spurted forth the inky liquid with which it blinds its prey.

Stopping just outside of reach of the tenacles, Mrs. Herndon screamed for her husband. Beating the octopus with sticks, the aviator drove it into shallow water and onto the beach. They then put it into a tub and presented it to the aquarium at Nassau.

"Mrs. Herndon was excited at first," the fiyer said, "but she was brave. There is no doubt in my mind that if she had approached a few inches closer the octopus might have dragged her down and drowned her."

The Atlanta post of the Colored American War Veterans' Association will hold its weekly meeting tonight at the post headquarters, Room 222, Herndon building, at 239 Auburn ave-nue. All veterans are urged to be

FENNER, BEANE & UNGERLEIDER.

NEW YORK, Jan. 25.—The market, while quiet, displayed a good undertone throughout the session. Final prices were around the best of day and 4 to 7 points over the previous close. Liverpool came better than due and private advices from that source indicated an active demand for spot cotton of all kinds. Moreover, Manchester reported a well sustained business in cloth and improving demand for yarns. Advices from Worth Street indicated a further advance in gray goods over the week-end and one of the leading selling sgencies not only commented on searcity of some constructions for nearby shipments but expressed the view it was reasonable to expect continued good demand for some time. While we see no likelihood of an important sustained advance, we continue to feel purchases on recessions are thoroughly justified.

the day's business was the firm under-tone shown and the absence of selling pressure following the heaviness which prevailed Friday and Saturday. Strength was confined largely to the industrial group and was due prin-cipally to some short covering of stocks put out last week.

STEEL DIVIDEND.

Early in the session rumors were current that a dividend of fifty cents a share for the quarter would be declared on Steel common but this was only a guess. Another rumor stated that one of the most prominent members of the steel corporation's board was inclined to the distribution of \$1 a share for the three months, the same as the last distribution. # IN CURB SHARES

BY CLAUDE A. JAGGER.

NEW YORK, Jan. 25.—(P)—The curb market plodded along in a rut today, maintaining a steady undertone and closing with small mixed changes.

Trading was dull, sales approximating only 180,000 shares; There was some easiness early and again during the last hours but in the intervening period the list showed considerable stability. Covering at the close erased most of the later set-back.

close erased most of the later set-back.

Electric Bond & Share traded narrowly and finished unchanged after selling off 3-8. American Gas was active, losing a point, Niagara Hudson and Middle West firmed slightly, but United Light "A" sagged.

Changes in the specialties and industrials were unusually small. Great Atlantic & Pacific improved 3 points on a few transactions.

Olls were a little easy. Minor fractional recessions developed in Indiana, Gulf and Humble.

Walsh Proposes Law
To Curb Production
WASHINGTON, Jan. 25.—(UP)
Proposed legislation to permit agreements for curtailment of oyer-production in industry, coupled with a requirement that the public must have "fair and reasonable" prices on products affected, has then amnounted by Senator David I. Walsh, democrat, Massachusetts.
Walsh said he would introduce a bill tomorrow carrying out this plan, similar in many respects to the plan of General Electric. He said the measure meets "an almost universal demand" by industries, the United States Chamber of Commerce, the American Bar Association and President Hoover's message to congress.

Commercial Productivity Prisoners Make "Brew" Aspect Should Rank Second, Says Georgia Bankers' Head at Athens

ATHENS, Gs., Jan. 25.—(87)—Less combasis on the commercial sapect of farming and more on farms as a place to live were recommended at the farmeter week and marketing conference Monday by Ronald Ransom, of Athantic President of the Georgia Bankets (1994) and the Rev. Ev. Cole, Jormer editor of agriculture, told the farmers a system of reforestation, a long-time program and raising, "your own bread" were the things for which they should plan.

The speakers of the afternoon session followed Dr. Andrew M. Soule, president of the State College of Agriculture, who told the leaders of agriculture and of city business enterprises grathered here that Georgia will develop in the future as its land is wisely conserved, efficiently used and developed. Dr. Soule called land "our most permanent and fundamental economic asset" and asserted that throughout the ages civilization has advanced as soil increased in depth variety and fertility through acturate and artificial means.

Land Terracing Urged.

Terracing of lands is one of the farmer's greatest needs, Talmadge said, explaining that valuable soil is being allowed to waste through carelessness or lack of facilities to remedy the situation. On his assigned subjects of "Standards of Georgia Products," the commissioner said that 7-8 inch staple was the best cotton for farmers in this state to grow since it conforms to the standards of the mills operating in this section.

"We must see our state as a place in which to live," Ransom said, "regarding our farms more from the use and occupancy point of view than from their commercial productivity aspect.

"A return to the traditional southern farm life to which can now be added all the comforts which modern life has produced" was urged by the banker.

He recommended efforts to get every citizen to vote and to assume the responsibilities of citizenship. Lack of that assumption of responsibility, he asserted, has caused "rottemess in American political life."

"We should elect courageous and able then to office." he said, "and support them in their right to exercise independent judgment. We are at this time most fortunate in Georgia in having a governor who meets all these requirements and we have already seen what such a man can accomplish in a short period of time."

Monday afternoon following the Talmadge and Ransom addresses the conference was devoted to measures for control of animal parasites and parasite dateases, and poultry production.

local league and (3) the social, civic, cultural, economic and educational conditions of our community.

The new members, or provisionals as they are called until they pass this necessary course, were elected in Decomber and the first lecture took place on January 9. At that time Mrs. Turner Jones outlined the history and explained the purpose of the Atlanta League and as city editor of the Junior League Magazine told of the requirement that each new member submit an article for publication. Also Miss Margaret Nelson in a short talk brought a realization to the meeting of the privilege of belonging to the larger organization, the Association of Junior Leagues of America, of which the Atlanta League is only a, small unit.

Since then the provisionals have been taken on two field trips, one to the Henrietta Egleston hospital, where is located the Junior League ward, the charity for which all our work is done throughout the year. The other trip was to Judge Garland Watkins' juvenile court, where everyone was tremendously impressed by the seriousness of this great civic problem.

The new members have been drilled in parliamentary law procedure by Miss Rosa Woodberry, well-known authority, and they have listened to Miss Rhoda Kaufman, secretary of the Family Welfare Society, as she told of the immense amount of welfare work being done this year in the city. The Junior League now has 18 members doing case-work with this organization.

On Thursday, January 28, at the Piedmont Driving Club at 3 o'clock the provisionals will be introduced to the Junior League Marionettes. Mrs. Wiley Ballard, chairman of the Marionettes, will explain informally the origin of this branch of work, and will tell how the dolls are made and dressed, how the scenery and lighting effects are achieved, and will demonstrate the manipulation of the strings which cause the Marionettes to become lifelike.

Two more lectures are scheduled for the course; one will be arranged by the arts and interests committee of the League, and the other as a grand

the arts and interests committee of the League, and the other as a grand climax will present Governor Richard Russell, who will speak to the new members in the senate chamber at the capitol. He will discuss the intricacies of the city and state government and an enthusiastic group will gather to hear him.

As soon as the last lecture is completed an examination must be taken, and all those passing this test will be introduced by Mrs. Warren at the March meeting a active members entitled to full privileges in the Junior League.

When our own Marionettes were in their infancy the Tony Sarg organization was more than gracious in making helpful suggestions and when it was also announced that this year these well-known Marionettes would give a generous part of the proceeds to the Henrietta Egleston hospital, in which the Junior League is always interested on account of the ward we support there, our members should be particularly anxious to attend. Mrs. Marion Kiser, one of the Junior League Marionette committee, and her assistants. Mrs. George Weyman. Mrs. Winfrey Ramsay and Yiss Ann Wyns Fleming, are handling the publicity and they state that the two performances yesterday were delightful for grown-ups as well as children and urge all the friends of the hospital to take advantage today of the opportunity for several hours' unusual entertainment.

The Jottings is most proud to announce that the Junior League entries won the \$50 first prize offered by Davison-Paxon's store in the table-setting contest last week. The original ideas of Mrs. Emory Cocke and Mrs. Norris Broyles are directly responsible for our good fortune, as they selected the appointments used for the formal luncheou table on which we won first prize and an additional \$10 for the formal dinner table which won third prize, or a white ribbon, and for the informal buffet supper table which again won a blue ribbon and \$10. This enabled our organization to carry off \$70 in all for merit, the Atlanta Woman's Club winning. \$10 for merit and the West End Woman's Club was awarded \$20 for attracting the greatest number of persons to the exhibit. ### Why So Many Take BLACK-DRAUGHT

In the Junior League it is the duty of the second vice president to take charge of the new members as soon as they are elected.

This year we are fortunate in having Mrs. Green Warren in this office and she has planned an excellent course of eight lectures to acquaint the provisional members who should be in the auxiliary.

Mrs. Robert Pegram is asking that all Junior League members who take a personal interest in the welfare of the Henrietta Egleston hospital join the women's auxiliary, which is now making a drive for new members. Mrs. Robert Foreman Jr., our president, has appointed Mrs. Preston Arkwright Jr. to nid Mrs. Preston acquaint the provisional members who should be in the auxiliary.

You'll never know how quickly a stubborn cough due to a coid can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all te mix and costs but a trifle. Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make a full pint. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly an the bronchial tubes. At the same time, it promptly loosens the germladen phlegm. This three-fold action explains why it brings such quick relief even in those severe coughs which follow cold spidemics.

### Jack Dempsey To Appear Here in Exhibition Bout Late in March; Barron and Roos Hold First Official Conference Today; George Sargent To Aid in Development of Young Golfers Here

# **JACK DEMPSEY**

Battling Bozo, Jeff Carroll and Cancela Considered as Foes.

Max Abelson, local matchmaker, last night was awaiting word from "Pa" Stribling regarding the preferable date for Jack Dempsey's appearance here the last of March.
"Pa" closed the deal with Dempsey's manager, Leonard Sachs, late Sunday night. He barely had time to make an announcement to the press, but informed Abelson that he could get in touch with him soon about the matter.

Abelson stated last night that as sorn as he talked with "Pa," ha would go about getting the auditorium for that date. He figures that Dempsey will show in only two southern cities, Atlanta and Miami.

CHANGED MIND.

"At first I had thought that Dempsey would not come this way this winter because of his planned comeback in New York but evidently he decided on a swing down this way," Abel-

ed on a swing down this way, "Abarson declared.

The matchmaker also believes that Dempsey would pack the house here and set a record gate.

"I figure he is twice the drawing card as a fighter that he was as a referee and now that he seems to be getting in shape, I believe everybody will want to see him," Abelson added. Dempsey recently said that his legs were all right and that he felt like his old self. Everywhere the exchampion has fought, he has put on good exhibitions and the crowds have been large.

Dempsey is not picking punch drunk palookas for his opponents, but is taking on some pretty fair heavyweights.

"If we get together on a date I figure that Dempsey will box about three men here, including Battling Bozo, Jeff Carroll and possibly Tony Cancela, whom I have been wanting to bring in from Florida," Abelson said regarding his probable opponent. Bozo is fighting Bill Jones in the National Boxing Association elimination tourney at Chicago Thursday night. It is thought that Dempsey would go about three rounds here and that a supporting card would be built around him.

Dempsey has wanted to fight in Atlanta ever since he began his come-back, he has revealed.

Abelson also is working on plans to bring Johnny Risko here for a bout on the latter's return trip to Chicago. Risko is now in Florida recuperating uled to box Stribling there sometime early in March. Battling Bozo has been substituted for him in the bout with Babe Hunt, slated to come off February 4.

# **GORILLA JONES**

MILWAUKEE, Wis., Jan. 25.—
(P)—Gorilla Jones, Memphis negro, won the middleweight championship of the world by defeating Oddone Piazza, of Italy, in the sixth round of a scheduled ten-round bout tonight. He won on a technical knockout.

Piazza, attempting to escape from the fire of punches, staggered half way across the ring on his heels, then fell in a neutral corner. When he got up, Jones tore into him and had the Italian youth on the verge of collapse. Jones won every round except the first.

Sargent Explains Flare Up and Fading of Golfing Form in Youngsters. George Sargent, "The Shot Maker," who Monday became affiliated with the East Lake Club as professional to go on active duty March 1, explained something which has puzzled golf

Sargent has gone about the business of studying golf as a scientist in search of a serum for cancer goes about his work with test tubes and retorts. The slow movie has been the laboratory wherein

in the young players.

Sargent has made his rather exhaustive research into golf. He spent, for instance, more than 100 hours checking the swings of Bobby Jones, Harry Vardon and

Joyce Wethered. More of that later. It was a remark of his, concerning his son Alfred, now professional at Inverness Club, which inspired the question anent the sudden flare of youthful brilliance and the equally precipi-

Sargent said that he stopped his son Alfred from playing golf and set him to playing basketball to keep him from burning out and losing his form. And Sunday Alfred, playing at East Lake for the first time and playing golf for the first time since November, shot the first nine of the old course in a 34 and had a 71, one under par, for the course.

This inspired the query concerning the proper development of young players, and why so many of them showed early promise only to fail to continue.

#### POWER SOURCE CHANGES.

"I think the slow movies have shown us exactly what happens to the young players," said Sargent. "When they begin, they rely on the pivot for the source of power in their swings. There is very little difference between the young player and a woman player in so far as their style is concerned. Both depend on the pivot for power.

"Now, the young player goes along until he gets to be about 17 or 18 years old. He begins to get strong arms and to use them for power.

"This causes his swing to change radically, but most of the ime he fails to see it. He begins to experiment and pretty soon has destroyed his chances to develop, or thinks he has, and becomes discouraged and quits going after it seriously. The slow movies have taught us that about the young players.

"A woman player depends on the pivot all the time. She keeps the pivot right on through. A man, as soon his arms develop, uses them, and after he learns this the pivot halts on the downswing and the arms make the power.

'Many of the young players are not burned out but just discouraged. I hope to be able to do something with the young players in the East Lake Club."

#### "THE TWO BEST WOOD SHOTS."

Bobby Jones entertained the golf committee of East Lake KAYOFS PIAZZA and the sports writers of Atlanta at a delightful luncheon Monday noon at the Athletic Club, the town club of East Lake.

The talk turned to golf and golfers, which was not at all strange. There was talk of Harry Vardon's and Ted Ray's booming drives, and of the tremendous distance which Cyril Tolley had from the tee. "They were all great drivers," said Sargent, "but the man

who could put the two best wood shots together was Bobby Jones. I never saw anyone who could equal him with two consecutive wood shots. There were some who outdrove him now and then. But none who could put another one to it and be as far down the fairway as Jones."

#### BEGAN WITH VARDON.

George Sargent is a delightful gentleman and will be a great addition to the fine fellows who hold the professional positions at the various clubs in Atlanta. Atlanta has been unusually fortunate in having splendid professionals.

Sargent is an Englishman, having been born at

Raigat, England. He was for a number of years at Epsom Downs and in 1900 became the youthful assistant of Harry Vardon, one of the great figures of golf history.

Vardon, of course, is a hero to Sargent, as he is to every other golfer for that matter.

"I was over there," said Sargent, "a year or so ago, and played with Vardon. He scored a 29 on the first nine, the first Defeats Canon, 16-12 time he had ever made it on that course. He was 62 years old and-shooting a 29!"

#### ATLANTA-GOLF CENTER. Sargent made a very pretty little speech in acknowledgment

'the reception given him. "I am proud to come to Atlanta," he said. "Probably many of you do not know it, but Atlanta is recognized as one of the golf centers of the world. Bobby Jones and your other fine golfers have made it so."

Al Doonan attempted to discourage Sargent by telling him

that he, Doonan, had been struggling with golf for 30 years and still felt happy when he broke a hundred, but Sargent promptly promised to take up the case.

#### CHANGES IN PROSPECT.

Sargent is noted for building difficult golf courses. Bobby Jones, who played at Scioto a number of times, recalled a couple of holes with shudders.

It is quite likely that East Lake will see some changes on some of the holes when Sargent gets to work. He and Jones were busy talking over some of the holes at the luncheon.

Sargent expressed himself as delighted with the layout at East Lake, the two beautiful courses and the club in general.

YOU CAN'T KID A GOLF BALL. Sargent let fall one of his pet expressions while discussing

"You can't kid a golf ball," he said. "The golf ball knows. You can kid yourself, but not the ball."

By Jimmy Jones.

Contracts to 28 men on the Atlanta baseball roster will be mailed out Thursday of this week, according to present plans of Business Manager "Chick" Roos.

Red Barron, the new manager of the club, will come to Atlanta from Monroe early this morning to hold his first official conference with Moos in the baseball offices at Spiller field.

The new officials will go over the roster, discuss individual players and decide on the positions that need strengthening most. This will enable them to get started immediately on the effort to land new players.

Although there may be slight reductions in pay here and there, no serious trouble is anticipated on holdouts. Things have gone along very smoothly

Things have gone along very smoothly thus far, Roos reports, and none of the players have indicated they would offer any trouble on the standpoint

of pay.

"I've been pretty busy with preliminary work, but I hope to get these
contracts out and have them in early
so that we can begin spring training
with a full force," Roos stated.
Four players, Blethen, McKee,
Farmer and Bejin, have already

signed.

Roos also will start work next week on the opening home game of the season between the Crackers and Nashville here April 14. The Crackers go to Nashville first to open the season and then come home with that club.

of Commerce would like to help put over a big crowd.

"I don't know yet what arrangements will be made, but I hope to begin working on it early and try for that attendance cup," Roos said.

"I don't know yet whether we will make a trip this week or not, but we may make a round soon in search of the players we may need." Roos stated. A deal or so may be engineered with Toronto in the spring, but the Crackers probably will not wait that late to get help, as players are more plentiful now than they will be then, especially if some of the defunct leagues are reopened.

Barron will move to Atlanta around March 1 and take up his residence here, it is understood.

Johnny Dobbs, recently deposed manager of the Atlanta Crackers in the reorganization which also swept R. J. Spiller out of the business manager's office, will not be out of base-ball this year if the Southeastern league is revived.

Joe Engel, president of the Chattanoga ball club, told The Constitution Monday afternoon in an exclusive interview that he planned to have Dobbs come to Atlanta this week to discuss the situation with the Cracker officials. Dobbs, it develops, is not exactly clear as to his status.

At the same time it was announced that Errie Ball would remain as Sargent's assistant.

"I am happy to present a man whom I believe to be one of the finest students and teachers of golf which the game has produced." said Bobby Jones in presenting Sargent. "He has kept step with his profession as have the lawyers and the physicians, and ae teaches all that is modern and improved in the game."

PROUD TO BE HERE.

Sargent, in a brief but delightful speech of acceptance, said: "I am happy and proud to come to Atlanta. Probably you do not recognize it because you are so close to it but Atlanta is one of the great golfing centers of the world because of the fine play of our great friend Bobby Jones and your other fine golfers.

"I hope to devote a great deal of my time to the young players of the city with the hope that we may see some more of the type of players who have made your city so famous."

In conversation following the luncheon Sargent amplified his statement concerning young players. His studies of golf form with the aid of slow movies has helped him develop some information which he believes invaluable in the study of golf and the teaching of young players.

Sargent left Atlanta Monday night for his home at Columbus. He will return in time to take over the club duties March 1, replacing Frank Ball, whose contract expires at that time.

Floyd Marshall To Meet

In the semi-windup Floyd Marshall, the huge Californian, meets John Ka-tan, one of the big attractions in Memphis and in eastern cities.

Memphis and in eastern cities.

A third match, with a 30-minute limit, offers Gordon Brown and Jack Harvey, Atlanta boys, in what promises to be a genuine thriller. Both are capable wrestlers.

The main event is a two-hour limit affair and the semi-windup an hour. The preliminary and the semi-windup will be one-fall matches, with the main event being decided by two falls out of three.

ATTRACTS INTEREST.

The wrestling card, the largest of fered in some months, is attracting unusual attention. Znoski has won friends here in large numbers by his work in past matches. The Boston boy showed himself to be a skilled

grappler with plenty of speed, courage and stamina. He meets in Harper a wrestler of more experience, but one with whom he will be rated as about equal. Harper needs a victory badly in Atlanta, and this will undoubtedly spur him on. Znoski is appearing in his first main event here and this will add to his zest for the combat. The prospect is for some spectacular wrestling.

tling.

Harper and Znoski are spectacular without being rough. Harper offers the "Figure 4" or the hook scissors. He is especially adept at sensational escapes and blocks.

KATAN PROMINENT.

Matchmaker Henry Weber promises a genuine treat in Katan, one of the better wrestlers, who meets Marshall on even terms. Katan is a first-class grappler with a great record, as is Marshall.

Matchmaker Weber has inaugurated a news service for wrestling patrons. Those buying tickets in advance receive a discount on their tick-ets. Those desiring such service may get their names on the advance res-ervation list by seeing Weber or writ-ting him.

ing him.

Tickets are on sale at Davison-Paron's and the Piedmont Hatters.

Ladies are admitted to any seat in the anditorium for 75 cents.

Northwestern is taking the play from the other Big Ten capitals of sport these last few seasons. After a great football campaign, which fell just short of a victory over Notre Dame to start with, and flivvered in the post-season game with Purdue, the Wildcats are now booming along in the basketball race, leading the procession in defense of their title. Joe Reiff, high scorer for the 1930-31 season, is again Northwestern's big gun.

Following the slump in football receipts in the Big Tenn, which fell below \$2,000,000 for the first time since 1925, several important attractions of the regular season were scratched off the 1932 books. The answer is that even Bottom-ley's shift to Philadelphia wouldn't clinch the pennant there, but his sock would make the dangerous Cubs a vastly more troublesome unit. (Copyright, 1982, for' The Constitution and North American Newspaper Allianes, Inc.)

### BROOKLYN PAYS Hamas May Capture Crown for Campus

Looks Like Best of Young Heavies; Bozo Gets Big Chance With Billy Jones Thursday.

By Jimmy Jones.

Unless he stubs his toe on some unforeseen cobble stone—the same lying in the mitt of an opposing pugilist—Steve Hamas, the young heavy-weight who has just bowled over Tommy Loughran in two rounds, may become the first college man to hold a world's title. Hamas, with 24 knockouts in some 27 fights, has impressed all the

critics as a great fighter in the making, and has now surpassed Charley Retzlaff, the hard-hitting mid-westerner, in public favor.

The blow that finished Loughran really gave Hamas more prestige than any of his previous victories, for Loughran, although not the defensive master he was a few years back, was still in the limelight and serious-

sive master he was a few years back, vily starting a comeback.

King Levinsky, the Chicago fisher peddler, started Loughran toward the precipice recently with a series of knockouts, and Hamas, the collegian from Pennsylvania, toppled him over.

For some unknown reason, college men have never been very successful in ca.apaigning for the world's richest plum—the heavy-weight crown. The south thoughf it had a collegiate hope in Ad Warren, of North Carolina. But Ad, despite several desperate salvos of ballyhoo, seems to have feded although he had the tutelage of the astute Jimmy Bronson.

In the past most of our great fight-ers arose from the masses, the brake-beams and the barrooms. There was beams and the barrooms. There was none of the campus refinement about Sullivan, Jeffries, Fitzsimmons or Dempsey. Corbett and Tunney did develop tuxedo complexes but have not been able to develop an alma mater. Hamas has the rah, rah background. The fraternity pins seem to have proved a jinx for the rah, rah boys in so far as the professional arena is concerned.

BOZO'S BIG SHOT.

Thursday night in a Chicago ring "Battling" Bozo, Pa Stribling's clowning heavyweight, who is something of an Atlantan, too, as he divides his home between here and Birmingham, will get the chance of a lifetime against Billy Jones, the clever negro, in the N. B. A. light-heavy tournament.

Godwin, Daytona Beach, are two good southern light-heavies who are ranked in the country's first 10, but they refused to enter the N. B. A. tourney because of their sentiment about the color line.

Bozo suffered from no such compunctions and will enter, the ring

boxing public has adopted a "for crying out loud" complex when the subject is brought up in a respectable audience.

Pa Stribling reports from Miami that the game is not going so well down there, and the tourists who have money have shown a grest gift forkeeping it.

Something must be done to help things. Maybe this Hamas is the boy to do it.

For some time Bozo wasted his time battling about the country with Max Rosenbloom. Now Rosenbloom has been deposed and the National Boxing Association, which holds membership in all the important states, has put on a tournament of its own.

If Bozo can lick Jones—and he's ust crazy enough to do it—be will

about have the title cinched, as Jones has been a heavy favorite since he licked Larry Johnson.

Young Stribling, who will second Bozo, picks his man to win and most of the fight men in Atlanta also favor the clown. It will be something of an honor for the south if Bozo comes through.

Joe Knight, Cairo, Ga., and Bob Godwin, Daytona Beach, are two good

punctions and will enter the ring against Jones to do his best. Atlanta wishes the Battler luck.

### TARZAN AND THE ANT MEN No. 2

After Miranda had laboriously learned the cannibals' language, he realized that only a lucky chance had kept him from their cooking pots. Now he was less eager to proclaim himself Tarzan of the Apes. Instead, he let drop mysterious suggestions that he was indeed, none other than the river devil. The witch doctor was delighted and every one was fooled except Obebe, the chief. Being old and wise, he did not believe that the giant white man would soon mysteriously disappear.

For hours at a time, Miranda sat in the dim light for hours at a time, Miranda sat in the dim light of his hovel counting and fondling his little horde of brilliant jewels. No one but he knew he possessed a fortune that would buy him all the pleasure of the flesh if he but had it in any of the world's great cities. But in this cannibal land it was of no more value than the river's pebbles. Yet at the sound of each approaching footstep he would hastily hide his fabulous wealth in the wretched loin cloth that was his only garment.

And now, after a year of solitary confinement, another diversion had come to Miranda. This was in the form of Uhha, the witch doctor's daughter. watched the mysterious prisoner from a distance until at last one day she approached him. The Spaniard watched her half-timorous approach and smiled encouragingly. He had not a friend among the villagers. If he could make but one his lot would be much easier and freedom a step nearer.

was an ignorant savage; but Miranda knew women "I have been long in the village of Obebe," said haltingly, "but never did I guess its walls held one as beautiful as you. What is your name?" "I am Uhha," she told him, "my father is Khamis, the witch doctor." It was Miranda who was pleased now. Fate at last had sent him one who, with cultivation, might prove the means of his escape! Deadlock Remains Force, Employes Still Do Without Salaries.

Atlanta's fiscal condition remained unchanged Monday as leaders continued their futile efforts to solve the perplaying problem of how to raise funds with which to meet pay roll

funds with which to meet pay roll accounts.

It appeared that employes will run about two months behind with all payments, at least until May 15, when the first installment of 1932 taxes is due, unless some agreement is reached on a January finance sheet.

The deadlock between the finance committee and those opposing it continued. Advocates of the measure calling for a blanket 10 per sent reduction in salaries declined to concede that the budget can be balanced without a cut, and opponents continued to out a cut, and opponents continued to decline to support any cuts in salaries for the 3,500 employes of the mu-

for the 3,000 employes of the mu-nicipality.

There was little prospect of a spe-cial meeting of council Monday as opposing forces marked time or nego-tiated without any definite advantage accruing to either side. Mayor James L. Key has amounced he will not convene a council session unless as-sured that the sheet recommended by the finance committee can be passed.

"Miss Chatfield, I recogaize in your column a description of me by my husband. L have not been a perfect wife but I have been a faithful one. We have five lovely children. Some of them are grown, as he told you. My husband wants to be as young and sporty as they are. He has quite a fancy for young girls. He considers it quite proper to take long trips to see a girl and considers it equally proper to call on one right under my nose. If he calls me a magger it is because he has worried me to death with his habitual indiscretions. If he says I am crazy, it is because I have worried myself to death over the humiliations that he has caused me and the wafulty and splashed into the water. If you drive through the countryside in the fall you will often see fruit trees in sparse bloom. The warmth and moisture of autumn has coaxed these trees into a blossoming out of season. But the cold snap, is on the way and these blooms will not have time to mature. The spring is the time for flowering and the summer is the time for fruiting. So it is with these husbands that feel false spring and try to stretch it out into a false summer. It can't be done.

Money for Starving Being Used To Buy Hoover Support, Virginian Charges.

RICHMOND, Va., Jan. 25.—(P)—
The News-Leader today quoted John Hopkins Hall, state commissioner of labor and industry, as saying that Secretary of Labor W. N. Doak is "using federal money appropriated to feed the starving to buy political support for President Hoover."

The paper stated that Commissioner Hall, who previously had protested against the Doak unemployment relief plan, said Mr. Doak is setting up "another superfluous and useless agency in Norfolk similar to the one already established in Roanoke."

"It is all a part of a political game to help re-elect Hoover, and Secretary Doak is in charge of the movement, and is usinf federal funds that should be spent for the relief of the unemployed," Mr. Hall asserted.

DRY LAW OVER RADIO

WASHINGTON, Jan. 25.—(P)—
Senator Howell, republican, Nebraska, and Representative Beck, republican, Pennsylvania, tonight debated prohibition over the radio.

Representative Beck advocated his proposed substitute for the eighteenth amendment which would give every state the right to determine how it will regulate the liquor traffic within its borders, "yet gives the dry states not only their reserved rights but the added power of the federal government to protect them in the full enforcement of their prohibitory laws."

Senator Howell said if this amendment was adopted "we would not know what system of liquor legislation congress would enact, nor what any state would adopt."

had behaved himself well enough to get the \$2,000,000 which his father left to him.

The father, Richard C. Kerens, of St. Louis, said his son was not to get the money until he proved he had stayed sober and been on his good behavior for five years.

The elder Kerens, former ambassador to Austria-Hungary, died in 1916. In January, 1928, Vincent came forward and said that for five years beginning January 24, 1923, he had let liquor alone and had been a good citizen otherwise. His two sisters, Mrs. Gladys Colket and Mrs. Madeline Kenna, however, had their own ideas on good behavior.
